2. I discussed the subject with [] of NPIC on 20 March and was informed they had no position at that time. They reviewed the last five missions overnight and conclude all were overexposed. Historical records showed that last year at this same time a change from f10 to f16 was made with satisfactory results. This was reported to me this afternoon.

3. I called Secretary McMillan and gave him the substance of NPIC evaluation. He will undertake to have this change accomplished.
